ARCHANA P I

Bengaluru, Karnataka, India | +91 7012898127 | piarchana2004@gmail.com | linkedin.com/in/archanapi

PROFESSIONAL SUMMARY

Computer Science graduate (B.Tech, 2026) with hands-on experience in SQL, data analysis, and spreadsheet-based reporting through academic and personal projects. Comfortable working with common productivity and collaboration tools (Gmail, Chrome, Docs, Sheets) and navigating ambiguous, open-ended problems independently and as part of a team. Proven ability to identify patterns in data, communicate findings clearly, and translate analysis into actionable insights — seeking to bring this foundation to a data analytics role.

QUALIFICATIONS

- Practical exposure to common productivity and collaboration tools (Gmail, Chrome, Docs, Sheets) for daily collaboration and documentation.
- Working knowledge of SQL programming for querying, organizing, and analyzing structured data.
- Strong problem-solving and critical-thinking skills demonstrated through independent and team-based academic projects.
- Experience navigating ambiguous project requirements, identifying suitable solutions, and seeking guidance when appropriate.
- Fluent in English with strong written and verbal communication skills for training documentation, presentations, and stakeholder updates.

TECHNICAL SKILLS

Data Analysis & Programming: SQL, Multi-table Joins, Relational Database Design, Python (Basic, in progress with AI tools), Data Analysis, Pattern Identification, Anomaly Detection

Tools & Platforms: Google Workspace (Gmail, Chrome, Docs, Sheets), Oracle SQL Plus, Microsoft Excel, Power BI, GitHub

Analytical Methods: Data Storytelling, KPI & DAX Reporting, Risk Profiling, Exploratory Data Analysis, Data Preprocessing

Core & Collaboration Skills: Problem Solving, Critical Thinking, Independent & Team Work, Communication, Time Management, Project Documentation, Agile Fundamentals, Sprint Planning, Stakeholder Communication

CERTIFICATIONS & TRAINING

- Python for Data Analytics with AI Tools — Offline certification course (In Progress): Building applied skills in Python, data analytics, and AI-assisted tools for data analysis.
- Tata Group — GenAI Powered Data Analytics Job Simulation: Completed practical tasks in exploratory data analysis, risk profiling, AI-driven delinquency prediction, and data storytelling for a collections strategy.
- Deloitte — Data Analytics Job Simulation (Jul 2025): Completed practical tasks in data analysis and forensic technology using real-world business scenarios.

PROJECTS

European Travel Organization — SQL Database & Analysis Project | Personal Project

- Designed and built a relational database in Oracle SQL Plus with 9 linked tables covering countries, customers, tour packages, hotels, flights, tour guides, bookings, and payments.
- Modeled one-to-many and many-to-many relationships (e.g., packages to hotels, packages to guides) using foreign keys and junction tables.
- Wrote and executed SQL queries involving multi-table joins, filtering, and aggregation to analyze booking trends, payment status, and package performance.
- Extracted business insights such as revenue by package, booking confirmation rates, and guide/hotel allocation across tour packages.

Loan Analytics Dashboard Using Power BI | Personal Project

- Sourced raw loan data from Kaggle and worked through the full data lifecycle — from raw data collection to cleaning, transformation, and reporting.
- Assessed raw lending data for accuracy, transformed it using Power Query, and built KPI dashboards to uncover loan approval and customer trends.
- Analyzed patterns across customer segments and loan types to identify trends in approvals, risk, and lending behavior.

- Developed DAX measures and interactive slicers/filters to support data-driven business decision-making.

Emotion Recognition System Using Customer Reviews | Mini Project, Team Leader

- Led development of an NLP-based sentiment analysis system, planning activities and delegating tasks to ensure timely completion.
- Achieved over 95% classification accuracy through effective data preprocessing and model optimization.
- Collaborated with team members to resolve technical challenges and communicated project outcomes to stakeholders.

EDUCATION

Bachelor of Technology (B.Tech) — Computer Science and Engineering
Vimal Jyothi Engineering College, APJ Abdul Kalam Technological University (KTU) | 2022 - 2026 | CGPA: 7.96/10
Kendriya Vidyalaya NSG Manesar, Gurgaon (CBSE) — 12th: 79.6% (2022) | 10th: 91.4% (2020)

LEADERSHIP & ACHIEVEMENTS

- Team Lead, SAP Hackfest — Led a team of 5 to develop an SAP-based solution; secured a Top 100 finalist position.
- Coordinated cross-functional teams and delegated responsibilities across multiple academic projects, consistently delivering on time.
- Confident public speaker with experience presenting technical work at seminars, project reviews, and academic events, and conducting sessions for junior students.

LANGUAGES

English (Fluent) | Hindi (Fluent) | Malayalam (Native)
